FORTY-SECOND YEAR, No. 26

DEMURRER UPHELD BY COURT

In Matter of Teche Lines, Inc.—Case To Be Heard In Bay St. Louis July 10

A demurrer interposed by the city of Bay St. Louis to the suit of the Teche Lines, Inc., against the municipality protesting the validity of a certain ordinance barring heavy motor vehicles from certain streets in Bay St. Louis, was sustained Saturday afternoon by Chancellor D. M. Russell following a hearing at Gulfport.

The suit which is in the nature of an injunction petition is based upon the contention of the Teche company that the ordinance in question calculated to regulate traffic on certain streets of Bay St. Louis is invalid and if enforced will prevent them from serving the people of Waveland and Lakeshore with bus service.

After sustaining the demurrer, the Chancellor gave the petitioners time to amend and set the case for hearing on its merits at Bay St. Louis on Monday, July 10, the opening day of the regular July term of chancery court for Hancock county.

The ordinance complained of, it was said, prohibits the operation of motor vehicles of more than two tons over certain streets in the municipality and the Teche company seeks a permanent injunction to prohibit the enforcement of this ordinance.

SENATOR HARRISON TELLS BENEFITS TO MISSISSIPPI FOLK

State, Counties and Cities May Be Refinanced 70 per Cent—Highway Benefits

Passage of the administration recovery act by Congress before its adjournment was interpreted by Senator Pat Harrison of Mississippi at Washington as assuring a gigantic program of public works, industrial rehabilitation, and unemployment relief to the home State.

Benefits to accrue immediately to Mississippi according to Senator Harrison, are summarized as follows:

1. Immediate release of approximately \$7,000,000 to state highway department, a part of which may be used by the state to match additional federal aid funds held to the state's credit.

2. Completion of the new state insane hospital in Rankin county by a special arrangement whereby all remaining unsold asylum bonds will be purchased.

3. Construction of public buildings where needed and improvements on parks and cemeteries, such as at Natchez and Vicksburg.

4. Assistance to state, counties and municipalities in financing public works, with a direct loan from the government of 70 per cent, and contribution of the remaining 30 per cent.

5. Provides allotment for establishment of subsistence homesteads of colonization projects.

6. Provide employment to several thousand idle men through new construction projects.

In a statement to the press, Senator Harrison explained that the administration of this huge problem will be handled through district administrators appointed by states. All contemplated projects will be administered through the district officials in the R. F. C.

Senator Harrison, who has been largely instrumental in securing speedy passage of the recovery act, and whose voice therefore will carry great weight with the president in its administration, was enthusiastic over the prospects for immediate relief that accrue to his home state.

Losing of \$7,000,000 in highway fund which will be augmented with the additional money now being held to the credit of the state to be matched by local funds, will provide immediate employment to hundreds of men. The state highway department is understood to have already completed its set-up for an extensive road building program in accordance with President Roosevelt's policy of providing work to deserving men on public works.

Senator Harrison stated that he has already conferred with General Johnson, administrator of the huge public work program, and received assurances that an immediate market will be provided for the unsold asylum bonds at par.

Senator Harrison asserted that he was "anxious to cooperate with state officials" in securing at once the funds necessary to complete the new hospital in Rankin county.

HANCOCK TAX-PAYERS LEAGUE HEAR REPORT FROM CO. AUDITOR

County Auditor A. G. Favre Presents Figures Showing Set Expenditures

Organized with a view of cooperating and assisting officials, the Hancock County Tax-Payers League directors met Friday night at the county courthouse with intent of getting better acquainted with facts and figures concerning income and outgo of funds.

An interesting report was submitted by County Auditor and Clerk of Courts A. G. Favre, who presented an array of figures of income and disbursements of that fiscal year period extending from October 1, 1931 to October 1, 1932. This report revealed that the county's biggest burden of expense was fixed expenditures, such as interest and paying bonds, amounts that could not be curtailed in any manner but were contracted obligations. For instance:

Interest on outstanding bonds,	\$96,336.00
Bonds paid during fiscal year,	76,211.00
Cost of schools,	61,074.43
Total administration cost,	29,367.30
Cost of Courts, judicial,	10,185.11
Health and sanitation,	4,150.57
Highway maintenance,	42,952.00
Charities and corrections (including feeding prisoners, jail repairs, county poorhouse, donations to hospitals, taking care of prisoners, etc.),	11,407.20
Ad valorem taxes paid to municipalities,	8,000.00
Report also gave receipts. Here are a few high spots:	
Ad valorem taxes collected,	\$215,163.24
Gasoline taxes, for retirement seawall bonds,	55,050.08
State appropriation for schools,	25,810.91
Automobile privilege taxes,	16,103.94

October 1, 1932, there was a cash balance on hand, county funds totaled, \$107,110.84.

It will be seen there is not much income remaining for incidental expenses; that the money is judiciously expended and that tax collections from set assessments are equally necessary.

Included in the number of member attending the meeting Friday were Leo E. Kenney, Clem Weston, A. Loiacano, A. R. Hart, Winfield Partridge, George R. Rea, Henry W. Osoinich, Dr. D. H. Ward, Norton Haas.

The meeting adjourned to meet again in July. Members expressed satisfaction at the report submitted by Mr. Favre for the intelligent presentation and clearness of the matter and figures detailed.

Woman's Missionary Society Holds Meet At Mrs. Fred Wright's

The Woman's Missionary Society held its regular monthly meeting on Tuesday, June 20, at the residence of Mrs. Fred Wright with Mrs. Chas. Mitchell acting as co-hostess.

The devotional was led by Mrs. Eugene Davis which was a responsive scriptural reading. The topic "One Day in the Life of a Deaconess" was interestingly discussed by Mrs. James who gave a graphic description of just how much can be crowded into a day where the work is the labor of love.

The society was pleased to have as their guest Mrs. Harvey the wife of their former pastor who in a few words, spoke very feelingly of how good it felt to be "back home." At the close of the meeting, delicious refreshments were served by the hostesses.

4TH OF JULY IN BAY CITY TO BE BIG

Special Committee Busily Engaged Arranging For Crowds Here

Ten thousand posters announcing a Fourth of July celebration in Bay St. Louis were issued from press this week and distributed to all points between and including Mobile and New Orleans and as far in the interior as Hattiesburg. It is planned to bring here as many visitors as possible.

A committee, in which the business people of Bay St. Louis and Waveland are participating is arranging for a barbecue and fish fry to be held during the noon hour at S. S. C. athletic field where baseball games and public speaking will hold sway. Senator Carl Marshall is one of the speakers to be. Commissioner H. Grady Perkins will speak for the municipality.

In addition to the open Fourth of July activities there will be an afternoon dance at Uncle Charlie's Nite Club and at night another dance to wind up the day's festivities.

This celebration will be under the auspices of all ex-service men, actuated by a further patriotic impulse, to mark the day of all days in the history of our glorious country.

A representative of the committee tells the Echo that nothing but the freshest and best fish will be used for the big fry. The order was placed with local fish dealers rather than sending away and every purchase possible will be made at home.

Business men and others are co-operating fully and satisfactorily and nothing but success will crown the efforts of those in charge to make the celebration for Tuesday next memorable.

In recent years there has been no such celebration on here. Interest did not lag, but a united movement was all that was lacking. This supplied the day will not go by without a fitting celebration.

PEPPARD IS ROTARY SPEAKER

Guest of Club Tuesday Evening—Tells of Work And Plans for Immediate Future

Specially invited to be guest of Bay St. Louis Rotary Club, J. A. Peppard, county welfare worker, was the principal speaker before that body of professional and business men Tuesday night and told of the work and aims of the welfare set up in Hancock county.

Included in the vast and varied work accomplished, the welfare workers have built a schoolhouse, painted churches, building bridges, removing others and placing large sewer pipes in place of smaller bridges, building road fills, widening roadways and clearing debris and removing objectionable accumulation on roadsides and public places.

At present, Mr. Peppard said, every worker's name is caided and filed, that is, his occupation, in view of the probability that he may be put back to his regular occupation when the time arrives.

Also that a work long-looked for is started along the riparian property of St. Stanislaus College, removing stumps and decayed wharf posts that dot the beach front and mar the beauty of the property to say nothing of the danger of the protruding sharper points.

Mr. Peppard will leave about July 3 for University of Mississippi to join the 12-day special course given to county welfare workers under auspices of State Board of Welfare. The local office will be opened during his absence and taken care of by a clerical force.

The address was informative and well received. It was plainly indicated that the work accomplished is worthy and will prove not only of benefit to the needy but of value to the county.

Welfare Worker Is Victim of Assault At Office Headquarters

One-half hour Saturday after an assault on County Welfare Worker, J. A. Peppard at his office, Charles Rochon, 35-year-old negro was tried, found guilty and convicted of the charge by Judge August Ruhr of Beat 5. Rochon was fined \$25 and 90 days in the county jail. Rochon had received assistance on former occasions and because he was told he would have to wait awhile, attacked Peppard, officers said.

Rochon resides in Second street, corner St. George and is well known. The arrest, conviction and sentence establishes quite record and repudiates the too-often label of the courts and official as slow and inefficient. Judge Ruhr, fair and impartial at all times, never fails to apply the law as his court justly interprets it.

MANY FROM OTHER STATES SEEK JOBS FROM MISSISSIPPI

Senators at Washington Since Mayor Kennedy's Appointment to Office At New Orleans

Washington, June 28.—"Help!" This is the cry of Senators Pat Harrison and Hubert Stephens, as each day the mail man brings them a foot-high pile of communications from the folks back home, all bearing the following general tenor: "Please get me a job."

This situation has prevailed up here for the past several months. It has become more serious with each advancing day, so that now, with the recent passage by Congress of such measures of national import as the industrial recovery, bank reform and other such legislation, it takes a substantial corps of workers in the office of each senator to take care of the appeals from constituents.

The applicants, of course, are all "constituents." They say so in their letters, and it says so in the letters from friends and backers for this and that job. They all voted for "dear old Pat" and "dear old Hubert." No doubt at all about that.

But, regardless of whether the communications are, or were, supporters of the two senators from Mississippi, it's a foregone conclusion that a lot of them will have to remain without jobs, for the present at least, because there just won't be enough jobs to go around to all. From Yellow Rabbit to Vinegar Bend have come the appeals averaging at least five hundred a day, and if Harrison and Stephens could accomplish the impossible and find work for every applicant, the name of this country would have to be changed to the United States of Mississippi, instead of America.

Both Harrison and Stephens have a lot of influence up here in federal government circles, but it would take more than influence to place every Mississippiian writing and wiring for a job. It would take a magician; some one who could spread his hands over the whole business and simply utter the magic formula of "Abacadabra!"

The recent success of Harrison and Stephens in "putting over" John Kennedy, Biloxi's mayor, as comptroller of customs at New Orleans, with supervision over the state of Mississippi, Louisiana and Alabama, didn't help matters, so far as job hunting is concerned. Now the offices of the two senators must listen to the appeals of Louisianians and Alabamians who think that Pat Harrison and Hubert need not send out the order "put 'em on" and they are on. Letters are coming in daily from job-hunters of Louisiana and Alabama, adding to the senators' great communication worries from their own state.

BILOXI TO ANNOUNCE ELECTION DATE FOR KENNEDY'S SUCCESSOR

Chief Executive Must Resign First—Not Many Candidates Announced.

The date for the election of a new mayor to take the place of John J. Kennedy who was appointed as Comptroller of Customs for the southwestern district of the United States, will not be set until Mayor Kennedy resigns, City Commissioner M. L. Mitchell said.

Given power so to do under the city commission form of government, the city council will set the date for the special election, which will be held within 60 days of the mayor's resignation.

Although quite a number of Biloxi business leaders have said they would be candidates for the mayor's post, only three or four are expected to really "toss their hats in the ring."

Mayor Kennedy yesterday talked with Acting Comptroller of Customs Daste of New Orleans, as to his duties. He has set no definite date for handing in his resignation as city mayor, he said this morning and was awaiting word from Senator Pat Harrison in Washington this afternoon. Mayor Kennedy stated that he would continue to reside in Biloxi.—Biloxi News.

Red Cross Delegate Returns Home From Vicksburg Meeting

Speakers from Washington, D. C., gave interesting and instructive talks on Chapter Activities, Relief Work, and explanation of Veterans' legislation.

HANCOCK RESIDENT LAID AWAY

Miss Zingerling, Native and Life-Long Resident, Passes Away

Miss Mary Zingerling, native of Hancock county, aged 69 years, passed away unexpectedly Thursday evening of last week and was buried with Catholic funeral ceremony the afternoon following at Bayou La-Croix. It was in this section that she had lived and passed away and it was but fitting that she be buried there.

Miss Zingerling lived in the old family home, an estate at Bayou La-Croix settlement, with her almost inseparable companion, "Mott" Zingerling, an unmarried brother.

Others brothers surviving are Joseph, John, Andrew and five sisters, Misses Theresa, Francis and Rose, Mrs. W. H. Kranky, Mrs. Victoria Asher.

Miss Zingerling's death was quite a surprise. It was known by those close to the family that she had been ailing and had visited Gulfport in the interest of her health. It was thought she was getting better when her ailment took a sudden turn and the end came unexpectedly. The family was shocked at her death. At no time was it suspected that her end was near.

She was one of the leading spirits and doers of Bayou La-Croix Settlement, some ten miles from Bay St. Louis, and she was equally as well known in the coast section of the county as she was in the interior. Her passing away will leave a void unfilled.

Funeral of "Miss Mary"

The funeral of "Miss Mary," as Miss Zingerling was affectionately and popularly termed by all who knew her in this section, took place from the late residence Friday evening at 5 o'clock.

The home, in its charming setting of many colors of radiant flowers which she had planted and tenderly cared for, showing her love for the beautiful and further surrounded by a setting of pines and other forest scene, was visited by many friends of the family. They had come from far and wide over that section of Hancock county and from Bay St. Louis to pay tribute and also to pay their respects to the memory of the one gone before.

There were many floral offerings, designs that had been sent from away, and as well smaller remembrances but in no wise meaning less, for all who attended the funeral felt keenly the passing away of "Miss Mary."

Rev. Father Leo F. Fahey, of Bay St. Louis, pastor of the little pine-embowered Catholic church at Bayou La-Croix, in the same hallowed grounds as Bayou La-Croix cemetery, was master of the funeral ceremony, assisted by Rev. Father Dennis, of the Kiln, also a personal friend of the deceased.

Father Fahey paid tribute to the deceased. He said it was not customary for the church to pay personal tribute. That was not the order of things today. But here was an instance where an exception would be made. He said the deceased had been an active and typical christian all her life. She had been a noble and generous soul. Her endeavors were many and it was due her in major measure that it was possible to build and maintain the church.

Father Dennis followed in paying tribute, having known "Miss Mary" over a long period of years.

Following the church ceremony the casket was carried by the several pall bearers, all young men, nephews of the deceased, and tenderly deposited within the bosom of mother earth to rest and in keeping for the ages to come. Her soul, the good fathers, who had known her life as she lived and practiced it every day, said had gone to heaven and eternal blessedness.

HAIL TO A SAFE FOURTH!

INDEPENDENCE Day of old was celebrated with reckless abandon. Hundreds of persons of all ages lost their lives playing with fireworks, guns and explosives. Others were drowned or killed in motor accidents. Now, the Fourth divides catastrophe "honors" with almost any week-end; except by virtue of the ceaseless efforts of safety organizations and accident and fire prevention workers, it is apt to be a shade safer. This is because people are keyed up to its hazards. They are safety conscious.

Last year, on the "morning after," the Associated Press reported 119 motor vehicle deaths, 90 drownings, 10 fireworks fatalities and 26 deaths from other causes—a total of 245. This is disgraceful enough, but superior to the 1931 toll of 354. No one knows the extent of serious or minor injuries, because only a fraction of them is reported. The National Society for the Prevention of Blindness estimates that 50 persons lose completely the sight of one or both eyes and that 500 more suffer minor eye injuries every year. This record is made by fireworks alone.

In recognition of the chief holiday hazards, fireworks, automobiles and swimming, the National Bureau of Casualty and Surety Underwriters offer the following advice:

If you go on a motor trip make sure your car is in safe operating condition; drive safely; keep to the right; drive at a reasonable speed; have 500 feet of clear distance ahead before you attempt to pass other cars. Watch out for pedestrians.

If you go swimming—swim in safe places. Things to examine are tides, currents, depths, sunken debris and impurities. Be sure to stay within your own limits. Wait at least two hours after eating, and then take along a friend for safety's sake.

Remember all safety rules; and "All hail to a safe Fourth!"

PROFITS CALL FOR INVESTMENTS.

THE death of Cyrus H. K. Curtis removes from our country one of the foremost publishers of his time.

It may be interesting to those contemplating what they consider the vast profits of his successful ventures to learn that when Mr. Curtis assumed control of his popular weekly, The Saturday Evening Post, it was necessary for him to invest \$1,000,000 before there were any profits at all. Subsequently, when he took over the farm journal, The Country Gentleman, it was necessary for him to expend \$2,000,000 to bring it out of the red.

Mr. Curtis then went into the newspaper field and paid \$2,000,000 for a Philadelphia daily. Of this purchase he explained that profit did not enter his mind but that he was anxious to establish a paper in Philadelphia that would be what he thought a good newspaper should be.

POISON IVY.

WE trust that no reader of The Echo will make any unpleasant contact with poison ivy during the summer but because of past experience, we assume that some of our citizens will do so during the vacation period.

The actual poison of this plant is a compound somewhat like resin or related to carbolic acid. It is very active and may attack individuals through indirect contact, such as when a garden tool, after contact with poison ivy, infects the individual.

The remedy suggested is to wash the skin first with alcohol or gasoline (but not with a gasoline containing lead, and then with soap and water. Dr. James B. McNair, of the Field Museum of Natural History of Chicago, recommends a solution of five percent ferric chloride in a fifty percent solution of alcohol.

BIG BILLS STILL OUT.

THE extent of hoarding throughout the country has been indicated by an incident in Cleveland, Ohio, recounted by Allee Pomerene, former chairman of the Reconstruction Finance Corporation.

Mr. Pomerene says that at a single baseball game, the box office received \$16,000 of the big old dollar bills. It is a matter of record that no such bills have been passed out by banks in more than two years.

The same thing has been observed in Bay St. Louis, but of course, on a smaller scale. Every now and then a local merchant takes in one of the mammoth bank notes which has been carefully saved by some citizen.

A Pennsylvania judge has expressed the opinion that gangsters should be stood up before a wall and shot to death. His suggestion embodies more than a change in the method of punishment. What he has in mind is a short and straight path from the commission of the crime to the infliction of the penalty. The spy and other wartime offenders can be tried drum head court martial one day and executed the next. Gangsters carry on war without a formal declaration of war. Why, indeed, should the swift and appalling methods of martial law not be applied to them?

Good business this fall will come to the prefall advertisers.

GULF COAST TO MEMPHIS

COAST interests are exerting a united effort in attracting the attention of the highway department and all authority concerned in behalf of hardsurfing Highway No. 49, that leads from Gulfport thru Jackson to Memphis.

All sections of the country are besieging the highway department in order to have a portion of the allotment of the \$10,000,000 which has been given the United States for highway purposes.

There is no highway in Mississippi more important than this one, No. 49, particularly to the Mississippi Gulf Coast, and the effort at present by the Gulf Coast to Memphis Highway Association with headquarters at Biloxi, of which W. E. White is president and Col. J. W. Apperson, secretary-manager, is aimed just now to have at least that section from Gulfport to Jackson hardsurfaced.

The Mississippi Coast has only one Highway and that is No. 90, route from Florida to California and it should be joined by a highway from Memphis. At present much traffic is diverted from this section for the reason we are out of bounds of a short or more direct route and for better roads. Tourists from East to California come down through the Carolinas thence across the continent, forced to pass up this section of scenic and general splendor.

It is hoped the Association, which Messrs. White and Apperson so ably head, will be successful in calling attention of the highway department in procuring approximately twenty million dollars and hardsurface the entire stretch of central state route.

The Mississippi Coast will then come into its own. The Shortcut from New Orleans will also come into more usefulness to a vast stream of tourists all the year 'round. A letter to Col. J. W. Apperson at Biloxi will bring literature and further information on the subject. The matter is too important to allow it to lag.

President Roosevelt received a shake-up at the hand of the ocean on his vacation cruise. It was a relief from Washington, at that. The elements are not always kind, but they are at least impartial.

THAT COMING BUILDING REVIVAL.

THERE is going to be a building shortage in this country unless construction activities are tremendously increased. This applies locally as well.

That seems a remarkable statement—but it's true. The so-called overproduction of homes and business buildings is an illusion—many of those in the "over-built" areas are old, run-down fire traps, which should be destroyed. America requires tens of thousands of new buildings each year if its needs are to be supplied, and during the past three years building has been far below the necessary level.

What this means is that there is going to be a major construction revival. And that, in turn, means that prices will boom. It's very possible that a home that would cost ten thousand dollars a year or two from now, can be built for sixty per cent of that sum today. And that goes for repairs, alterations and improvements.

If we build and repair now, we are making our dollars do double service. They buy us something we need at a rock-bottom price, and they help provide employment. They go into the fight to restore purchasing power. They become productive dollars—as distinct from non-productive dollars which lie idly in the bank.

The economists are forecasting that the building revival will occur in the near future. Do yours now, before the "rush" comes. And while it's being done, it will be pleasant to think that "employment and investment are cheaper than charity."

JULY FOURTH.

THE 157th year of the independence of the United States of America begins on the fourth of July and Americans everywhere will celebrate the anniversary of the declaration of independence.

It might be well to recall that that document sets forth the inalienable right of man to life, liberty and the pursuit of happiness and explains the function of government by stating that "to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed." Thereafter was set forth the injuries and usurpations which drove the colonists to alter their system of government.

While on many occasions it is the habit of the new generations to take for granted the greatness and goodness of the American system of government, nevertheless the fact remains that our present government form should be honored and respected only so long as it serves the purposes of government as set forth in the words of Thomas Jefferson.

THE present anniversary of our national birth comes on an occasion when the average citizen is beginning to appreciate the importance of a government interested in its welfare and determined to treat rich and poor, high and low, with equal deference and regard. Believing this, it is well for citizens to make an occasion of this great day in our national life and by proper observance create, if possible, in the minds of all an understanding of the duties of citizenship which must be fulfilled by the individual in order to share in the advantages which come from such a government.

Youth at McComb recently paid the supreme penalty for the folly of diving headfirst into water of questionable depth. Charles Jones, 16, dived from a platform over the river bank. He failed in his calculation of distance and fell at the wrong place. Another admonition to the young and others as well.

THE GLORIOUS FOURTH OUTSTANDING EVENT.

ON Tuesday will be celebrated the glorious 4th of July—Independence Day. Bands will play the national anthem. Patriotic speeches will remind listeners of struggles and strife throughout the history of our country.

Due and just tribute will be paid to the patriotic Americans, whose blood has stained many battle fields while fighting the righteous cause of their beloved flag. The emblem they loved above life itself.

Today this celebration has an even greater significance. It marks the birth of a new epoch in the history of the United States. It represents American faith, courage, and loyalty put to a crucial test—weighed in the balance—and found true-blue.

The present generation has soldiered through the hell of a terrifying depression. The great masses of American citizens have known the pangs of hunger and want. . . . bravely have they borne the tortures of humiliation. . . . the dismal monotone of despair and stagnation. Shattered hopes and crushed ideals they have endured with praiseworthy fortitude.

A people less patriotic and self-sacrificing might have overthrown a government. But the brave, fighting spirit of Americans is made of sterner stuff.

Under the courageous leadership of President Roosevelt, we are beginning to see the encouraging rays of hope and confidence which will eventually re-establish normal financial conditions.

May the Almighty grant our noble president continued good health to carry out the program he has undertaken. "And may the Star Spangled Banner ever yet wave 'ore the land of the free, and the home of the brave."

HAPPY DAYS ARE HERE AGAIN.

VACATION days are here again. Highways are crowded with happy-go-lucky tourists bound for distant haunts. The mode and luxury of travel varies according to the financial status of these modern "Knights of the Highways." The wealthy travel deluxe.

Their costly, powerful limousines are equipped with every possible luxury and aid to relieve the strain of travel. A uniformed chauffeur is behind the wheel. Flat tires and motor troubles along the road are seldom experienced by the deluxe traveling class.

If by chance they should, the dirty work falls to the driver. Just wait 'til we get our Rolls-Royce—just wait!

Another type of motor traveler, comprising the big majority, is the wage earner from office, shop, and factory over the country. The family take advantage of Dad's yearly vacation to go places, and see things. The entire family is clad in travel togs. Dust stained luggage is strapped to the sides of the car.

Dyed-in-the-wood tourists carry trailers, equipped with complete camping paraphernalia. Many have no special destination, roaming with the fancy of the moment dictates.

To do falls the duty of chauffeur, mechanic, tire changer and major-domo. The vacation tourist lunches at hamburger stands along the route, by night they gather at tourist camps and swap experiences of the open road. Before sun up they will be off again, but on reaching some designation on schedule time.

SAFE AND CONVENIENT MODE OF TRAVELING.

SCENES about railroad stations, too, are filled with the spirit of adventure. Many vacationists are wisely selecting this safe and convenient type of travel in preference to risking motoring hazards. Low round trip rates are offered by railroads. A circular issued by the Southern Pacific lists an excursion ticket from San Antonio to the Chicago World's Fair at \$24.30. These round trip fares apply for parties of 5 or more adults (or their equivalent) from each station shown on the list.

Sixteen years ago last Monday, June 26th, the first U. S. troops landed in France to help make the world safe for Democracy.

Our country gained a dearly earned lesson from this war. Taking part in any controversies of foreign nations is much like butting into a family quarrel. . . . the outsider gets the worst end of the deal everytime.

The World War began July 28, 1914. Even to this day the average person cannot explain intelligently what the big fireworks was all about.

SUCCESSFUL BUSINESS MAN USES NEWSPAPERS.

OUR compliments to the sound business judgment and foresight of a famous automobile manufacturer. His name is accepted as standard of quality and mechanical performance the world over.

Mr. Ford had a message for the public at large. An executive of Henry Ford's experience and established success in the industrial field, naturally, demanded the most influential and far reaching medium to put over his important heart-to-heart talk with the automobile-buying American public.

Wise Mr. Ford chose first-class daily and weekly newspaper advertising.

HUGH WHITE ARRIVES

Jackson, (Miss.) Tribune
TODAY Jackson welcomes one of the state's most prominent, if not outstanding, citizen, Hugh White of Columbia, who comes to the capital to take over the most responsible job of his active career.

As state administrator under the provisions of the federal industrial recovery bill, involving over three million dollars, Hugh White will direct the working out of a comprehensive plan that will be a milestone in the development of Mississippi.

With the co-operation of Governor or Mike Conner and other officials of our state, he will lead us along a happier path.

The selection of Hugh White for this post, at a salary of one dollar per year, was a fortunate one for Mississippi; and an instance of an honor being awarded where honor was deserved.

RESPONSIBILITY OF HIGH TAXES.

(Pass Christian Tarpon-Beacon)

PRESIDENT E. J. Adam of Harrison county Board of Supervisors tells the people, in a signed statement, that the responsibility of high taxes in his county does not rest with the supervisors. It is the people, the tax-payers, he says, it was they who voted for the numerous bond issues. They must now dance to the tune of their own fiddling—Bay St. Louis Echo.

The Echo is correct. It knows whereof it speaks. The people voted for all kinds of bond issues. They were led by boosters. They had to spread out and to do so, they had to have money. Bond issues were their source of obtaining it. They told the voters how it was certain a dollars worth of bonds would bring hundreds of dollars worth of additional value to their property. It was all a beautiful flower—according to the boosters' way of painting the picture.

New school buildings, paved roads and concrete bridges, seawalls, drainage canals, sidewalks, teachers homes and many other modern conveniences and equipment.

All of which appeared to be necessary. We were living in a progressive age. What the other fellow had was not a bit too good for us. To the most of us, we never thought a pay day would ever come, and we piled up great burdens of bonds, and now the people who own the bonds are asking that they be cashed in. Pay day has arrived.

The members of the Board of Supervisors were not responsible for the issuance of the bonds but there exists in every section of the country a certain element who constantly hammer on the county officials and the municipal administration with being responsible for all high taxes. These fellows know different, but it serves their purpose better to keep the truth in the background. They would have no blubber to blurt if they would tell the truth.

But truth will rise, and today the great bulk of the people read for themselves and soon discover that there are two sides to every question.

ing space to reach the most responsive audience—the newspaper reader. Local merchants should profit by the sterling example set by Mr. Ford.

and the side upon which Truth stands will prevail.

The Echo speaks the Truth when it says, "The people went out on a spree for bond issues. The must now dance to the tune of their own fiddling."

Relief from the burden of high taxes which the people made the mistake of placing upon themselves can only be effectively remedied by an intelligent, conservative and honest desire to reach such an end.

To secure such legislation as will enable the people of the counties, municipalities and school districts to refund their outstanding bonds, so as to reduce the heavy annual payments and extend the payments over longer periods should be the object of all who are earnest to secure relief and to that end work honestly.—E. STATE PRESS NOT WITH GOVERNOR

(West Point Leader)

THE Jackson News notes that the leading newspapers of the State are opposing vigorously the governor's suggestion that the gross sales tax be boosted from two to three per cent, unless there is positive assurance of a corresponding cut in the advalorem levy.

The News says: The Governor is no doubt sincere in his belief that such a program would lighten the tax load on the farmer, but the average taxpayer is dubious about it.

Such papers as the Natchez Democrat, Vicksburg Herald, West Point Times-Leader, Columbus Commercial Dispatch, and Greenville Commonwealth, are looking askance at the Governor's program.

The Natchez Democrat faces the Governor with an embarrassing question by remarking:

"The only additional tax that the people of Mississippi will pay cheerfully is a tax on beer."

It wasn't necessary to bring that up right at the beginning of the Governor's "report to the stockholders," even before the people as a whole have fully understood just what he is driving at, but it does seem to be an issue that, like Banquo's ghost will not down.

We agree with Editor Sullens that the injection of the beer tax into the argument is unwise and unfortunate at this time. But, like Banquo's ghost," this appears to be a subject that cannot be sidetracked, even in the discussion of a purely economic issue.

But the fact which we want to emphasize here is that the press and the people of the State are determined that there shall be no increase in taxation, and the Governor is fooling himself when he undertakes to increase the sales tax on a mere promise of a reduction in the State advalorem levy. The taxpayers of the State are "fed up" on promises.

BILL TO HELP HOME OWNERS SIGNED BY THE PRESIDENT

Provides \$2,000,000,000 To Refinance Small Home Mortgages—Low Rate Of Interest.

June 13th was not so unlucky as the date numerals so often suggest to the superstitious. It was on this month and date President Roosevelt signed the bill providing for a \$2,000,000,000 refinancing of home mortgages to put them on lower interest rate.

It permits holders of mortgages on homes valued at 20,000 or less to exchange these for government bonds bearing an interest rate of 5 per cent. A loan of eighty per cent of the value of the homes, with \$14,000 as the maximum, is provided.

A three year moratorium on interest payment is permitted. Loans for back taxes are allowed. If the holders of mortgages cannot exchange them for government papers, the law permits a cash loan to the home owners up to 40 per cent of the value of the mortgage and bearing six per cent interest.

Fifteen years is allowed for all repayments.

A home owner loan corporation is created to administer the act.

The present home loan bank board will supervise the gigantic refinancing project at the start.

Early announcement is expected of the officers throughout the country where the mortgage holders may apply for relief.

President Roosevelt, in signing the refinancing bill, asked creditors to abstain from foreclosing proceedings until the legislation gets into operation.

A recital by pupils of Mrs. Clifford B. Foster of Gulfport, director and teacher of the local school of the Violin, at the Hotel Weston, Bay St. Louis, the night of Wednesday, June 21, was received with hearty and complimentary approval by the large audience from this section in attendance.

Musicians praised especially the fine bowing of the pupils, the exquisite tones sustained and the general good musicianship of the children showing the excellent training they had received. It is difficult to single out individual pupils as all played very well indeed but mention must be made of James Fitcher, Marjorie Stallings, Richard Dambrino, Helen Mathers and Yvonne LaCroix and their fine work.

Of these James Fitcher is the grandson of Mrs. Lucy Mitchell of Gulfport, who is the sister of Robert Toume of Bay St. Louis. Marjorie Stallings is a cousin of Mrs. C. C. Clark, former Bay St. Louis resident.

Mrs. Foster, her father, Prof. W. H. Pate and sister, Mrs. J. V. Corriea of Boston, were former Bay St. Louis residents, living here some fifteen years ago and many of the audience were old time friends of Prof. Pate and family. The appearance on the program of these three artists delighted. Mrs. Foster played a violin solo, Orientale by Cui. Prof. Pate and Mrs. Foster played as violin duets, selections from the Fortune Teller and Two Guitars, a Russian Air, and Mrs. Corriea played the accompaniments. Another Gulfport artist was a guest performer on the program, Mrs. Bessie Wainwright singing the Bird with a Broken Wing, and the Cradle Song, and her cousin, Miss Catherine Walton of Ruleville, Miss., accompanied her at the piano.

The girls appearing on the program were beautifully gowned in evening frocks of modish type. Several of the parents motored the party to Bay St. Louis.

The students' program follows: Anchors Aweigh. Fit as a Fiddle. In Mischievous. O Sole Mio. Maria Mangano. Meadow Queen. Bessie Clark. Toreador Song. Margaret Scott. Helen Mathers, Bessie Clark. LETTERS FROM THE PEOPLE

A LITTLE BOY IS GRATEFUL.

Bay St. Louis, Miss., June 21st, 1933. Editor Sea Coast Echo:

The writer wishes to publicly thank Mr. Jones, young lawyer, for so bravely retrieving a large rubber beach ball, which had swiftly floated out, as far as the drawbridge, from the college wharf, Tuesday evening.

The great distance and the headway the object gained, having been half way to the bridge, when the young man started after the ball. He finally won out and the feat proved quite a contest to the large crowd in the water.

The little boy is deeply grateful, and calls Mr. Jones the hero of the hour.

Thanking you for publication, I am,

MRS. FABIOLA LeBLANC.

THOUGHTS ON JULY FOURTH.

The flag of Peace is wide unfurled, In Parliament of Man; The nations sit as Brothers stirred, In every Land and Clan.

The war-ships idly float today, Battle drums cease to beat; Sweet union o'er the world doth sway, And Justice holds her seat.

Yet Poverty and Sorrow steal Across the world's wide line; Foul Lust and Greed have made their deal, And men in penance pine.

Today we hail as Freedom's birth, But let us clasp God's hand; Heaven alone can guide the earth, And bring Peace to the March of Man.
